[Docket Number FRA-2021-0022]

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

Under part 235 of title 49 Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that on January 31, 2021, the Belt Railway Company of Chicago (BRC) petitioned the Federal Railroad Administration (FRA) seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA-2021-0022.

Specifically, BRC requests permission to make permanent modifications to multiple locations on its 59th Street Line between milepost (MP) 3.10F, Narragansett, and MP 0.0F, 55th Street. The modifications will include the removal of an interlocking plant, modification of an interlocking's configuration, and installation of new intermediate signals located on BRC's Kenton Line at MP 6.7. BRC states that the removal of these signals will eliminate superfluous signals with a commensurate reduction in the cost of maintenance.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the
